

# Rhode Island Renewable Energy Fund

## 2006/2007 Solar on Schools Request for Proposals

### Questions and Responses

Q1. Request to consider alternate DAEIS product.

A1. The DAEIS components are not subject to bid for this RFP. The Fund has elected to use the same DAEIS system it selected in the last similar RFP. If the Fund decides to continue the Solar on Schools program, it may be decided to revisit the DAEIS components when we request bids on additional installations. At this time, we do not know if this program will continue to be supported.

Q2. I am having trouble receiving Microsoft Word attachments. Is it possible to receive it as a PDF.

A2. The document has been created and is on the website.
